# Message from the Minister for Community Sport

*The Hon  
Ros Spence MP*  
Minister for  
Community Sport

Every child deserves the chance to be active and healthy, especially after the year we had in 2020, and the Victorian Government is helping make sure they get the chance.

The \$21 million *Get Active Kids Voucher Program* is a Victorian first and supports children to get involved in organised sport and physical activities by providing vouchers valued up to \$200 each, to help eligible families with the cost of memberships or registration fees, equipment or uniforms.

The Program will support 100,000 vouchers and help Victorian children to get back on the pitch, court, the nets, field or in the pool – to have fun with their friends.

More than 10,000 vouchers were snapped up in the first round of the Program.

Round 1 also opened more doors to sport with twenty-seven per cent of children who received a voucher joining a local sports club for the first time.

The Program is part of *Get Active Victoria*, which is helping families to move more, every day. With 80 per cent of children in Victoria not doing the recommended amount of physical activity, the Program vouchers will make it possible for more kids to get active, happy and healthy.

I commend the *Get Active Kids Voucher Program* to you and urge you to apply in Round 2 if you are eligible – your kids will thank you for it!

## THE GET ACTIVE KIDS VOUCHER PROGRAM

### 1.1 About the Program

On 1 November 2020, the Victorian Government announced the \$21 million *Get Active Kids Voucher Program*. This Victorian-first initiative will deliver 100,000 vouchers over two years to eligible Victorian children and young people, assisting families with the costs of participation in sport and active recreation activities.

The Program will encourage kids to re-engage or to participate for the first time in new activities by reducing the cost of participation which can be a significant barrier to participation.

The Program will be delivered in a targeted way to support families facing the greatest cost pressures to participation in sport and active recreation.

The Program will provide reimbursement of eligible expenses up to \$200 for each child for costs associated with participation in organised sport and active recreation activities. Eligible costs include membership and registration fees, uniforms and equipment associated with participation.

The Program will be delivered across four Rounds over the period 1 March 2021 until 15 April 2022.

Importantly, the Program will also support our sporting clubs, associations and active recreation providers by enabling them to re-engage participants and attract new participants and providing them with additional revenue to help them recover from the impacts of the coronavirus (COVID-19).

### 1.2 Why is the Victorian Government funding this Program?

Community sport and active recreation plays an integral role in our community. There is overwhelming evidence of the positive direct effects of sport and regular physical activity on health and wellbeing.

Victorians with low incomes or living in areas of relative socio-economic disadvantage have lower levels of participation in sport and recreation. This has a direct impact on their health and wellbeing and additionally on their level of connection to their community.

The program aligns to *Active Victoria: a strategic framework for sport and recreation in Victoria 2017-2021*, specifically addressing strategic direction two: broader and more inclusive participation through providing affordable participation options.
